CODi's Flex-head Instructions

CODi's lock head solution is exclusive and new to the accessory arena. This solution was designed for use with CODi's Cable Locks.

To use:

1. Slip one or more lock heads over the looped end of the cable. (see A1)

A1

2. Slip the fixed lock head (attched to cable) through the looped end of cable and pull until secure. (see A2)

A2

3. Secure each device individually by using one lock head per item. (see A3, A4)

A3

A4

anchor ring

secure monitor

secure laptop

CODi's Flex-head solution allows multiple computer components to be secured using a single cable. The Flex-head is a sliding locking head that can be added to CODi's existing cable locks.

CODi's EXCLUSIVE cable lock solution with anchor ring is a theft deterrent and does not guarantee your system is free from theft. Please visit www.codidirect.com for complete warranty information.
